QUIJOTE PROJECT

QUIJOTE PROJECT

Their union was born with a common objective: to carry Don Quixote forward, reinterpreting the work and taking it to the audiovisual margins. Their debut EP, "Quixote Project", was released in 2021 under the Italian label Meliodika Records. Additionally, in 2022, they proudly featured their releases on respected labels such as Beatfreak Records (from Spain) and Seal Network (Germany).

"I have always felt indebted to my homeland," says Fran Sánchez, originally from Alcázar de San Juan (Castilla-La Mancha), the symbolic birthplace of Don Quixote. From this reciprocity, the project was born: returning culture to its roots, and the profound influence it has given them.
